HOFFMANN ARCHITECTS PROMOTES BISHOP TO PROJECT ARCHITECT

January 2018 – Hoffmann Architects, an architecture and engineering firm specializing in the rehabilitation of building exteriors, is pleased to announce the promotion of a member of the firm's Arlington, Virginia-based technical staff.

Daniel L. Bishop, AIA

Daniel L. Bishop, AIA earned a promotion to Project Architect, in recognition of his advanced professional credentials and technical skill in providing investigation, design, detailing, remediation, and peer review services for building enclosure projects. In November 2011, Bishop joined Hoffmann Architects as Project Representative, and he earned a promotion to Project Coordinator in February 2014 and to Senior Project Coordinator in November 2015. A graduate of the State University of New York at Buffalo with a Master of Architecture degree, Bishop studied at the Aarhus School of Architecture in Denmark and is a member of the Association for Preservation Technology. His recent projects include roof and facade restoration and design for Verizon, the New York City Department of Design and Construction, the Smithsonian Institution, the George Washington University, and the United States Capitol. He lives in Alexandria, Virginia.

###

Founded in 1977, Hoffmann Architects specializes in the rehabilitation of the building envelope. The firm's work focuses on the exteriors of existing structures, diagnosing and resolving deterioration within facades, roofing systems, windows, waterproofing materials, plazas/terraces, parking garages, and historic and landmark structures. We provide consulting services for new building construction, as well as litigation and claim support. Our technical professionals investigate and correct damage resulting from time and weather, substandard or improper construction, design defects, material failures, poor workmanship, structural movement, and stress.
