## HOFFMANN ARCHITECTS PROMOTES CHRISTOPHER CLEMENTS TO PROJECT COORDINATOR

*September 2018* – Hoffmann Architects, an architecture and engineering firm specializing in the rehabilitation of building exteriors, is pleased to announce the promotion of a member of the Washington DC technical team.

*J. Christopher Clements*

**J. Christopher Clements** has been promoted to Project Coordinator, in recognition of his dependability, consistently high standards for quality work, and increased responsibilities. In 2015, Clements joined Hoffmann Architects as Project Representative, bringing a background in water management design and construction, as well as a bachelor of science degree in chemistry from the College of William and Mary and a master of architecture degree from the Catholic University of America. Last year, his diligence and responsibility earned him a promotion to Senior Project Representative. He provides investigation, document development, and construction administration services for diverse clients, including Lehigh University; the Smithsonian Institution; the Annie E. Casey Foundation; the Dome of the United States Capitol; and his own alma matter, the Catholic University. He lives in Washington, DC.

###

Founded in 1977, Hoffmann Architects specializes in the rehabilitation of the building envelope. The firm's work focuses on the exteriors of existing structures, diagnosing and resolving deterioration within facades, roofing systems, windows, waterproofing materials, plazas/terraces, parking garages, and historic and landmark structures. We provide consulting services for new building construction, as well as litigation and claim support. Our technical professionals investigate and correct damage resulting from time and weather, substandard or improper construction, design defects, material failures, poor workmanship, structural movement, and stress.
